

Rabies Vaccination Clinics 2014

Rabies is a preventable viral disease that is most commonly spread by saliva from a rabid animal through the form of a bite. Rabies is a disease that is transmissible to humans also.

North Carolina State law says that every cat and dog 4 months of age or older must be vaccinated against rabies.

All dogs must be on a leash and under the control of their owner at all times while at the Rabies Clinic.

Cats must come in a pet carrier.

The cost of the vaccinations at the rabies clinic are \$5.00 each pet.

We will be giving the 1 year vaccine only.

The pet must be at least 4 months of age.

Owners must clean up after their pets by picking up waste.
