

Pre-Occupancy Temporary Power For Testing Purposes Agreement

Per N.C. General Statute 153A-363, temporary power for testing purposes may be issued when it is deemed necessary and with approval of the Electrical Inspector.

Guidelines Permissible Under the Temporary Power Agreement

1. The initial approval period is not to exceed thirty (30) days.
2. Utilize HVAC equipment to maintain environmental conditions as necessary to complete the installation of sensitive materials and finishes.
3. Testing of the building equipment.

The Alexander County Inspections Department will only approve a 30-day temporary testing power connection unless it is extended by written agreement with fee paid and approval by the Inspector. This office reserves the right to disconnect the temporary power.

Permit # _____

I _____ understand the information stated above, and do hereby authorize the Alexander County Inspections Department to disconnect the electrical service at the completion of the 30 day temporary connection, upon giving me notice in writing at least eight (8) working hours prior to the disconnection, if I have not received a certificate of occupancy within the 30 day period.
